EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Gates on 9/14/2009.

2. The application has been amended as follows:

- Cancel Claims 18-34

Allowable Subject Matter

3. Claims 1, 2, 4-9, 11-17, 35 and 38 are allowed.

4. The following is an examiner's statement of reasons for allowance: The closest prior art is Tischler (US 6,765,240) and Nagahama et al (US 2005/0054132 A1). Tischler et al also discloses the using a silicon substrate (col 4, ln 50-60 and col 8, ln 10-35) and the M*N can be a single crystal material comprising a compositionally graded ternary metal nitride selected from the group consisting of AlGaN and InGaN (col 13, ln 1-5). Nagahama et al also teaches the formation of cracks is suppressed if the thermal expansion coefficient of the layer is smaller than the substrate and compressive strain is laid on the GaN layer ([0017]), however Nagahama et al

does not teach, suggest or provide any rationale for graded GaN. The prior art teaches a compressive stress but the prior art is silent to the amount of compressive stress in relation to other stress, thus does not teach a net compressive stress. Furthermore, the prior art does not teach, suggest or provide any rationale for a net compressive stress in view of the adverse decision by the board of patent appeals and interferences rendered 5/5/2009

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW J. SONG whose telephone number is (571)272-1468. The examiner can normally be reached on M-F 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Kornakov can be reached on 571-272-1303. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
